System Request

Meeting Room Booking System	
Project Sponsor:	University Administration / Facilities Management
Business Need:	1- Organize and manage meeting room bookings efficiently. 2- Avoid double booking and scheduling conflicts. 3- Allow employees to check room availability easily. 4- Improve the utilization of meeting rooms and shared resources.
Business Requirements:	1- Display a list of meeting rooms and their availability. 2- Allow authorized users to book, modify, and cancel reservations. 3- Support user login and roles (Administrator, Employee). 4- Send booking confirmations and notifications.
Business Value:	1- Saves time and improves productivity. 2- Reduces scheduling conflicts and duplicate bookings. 3- Improves use of meeting rooms and facilities. 4- Supports better planning and employee collaboration.
Special Issues or Constraints:	1- Must be accessible online to authorized users. 2- User authentication and data privacy must be maintained. 3- Room availability and booking data must be kept up to date. 4- The system should be easy to use and require minimal training.
